

Highlights

- Upgrade LCDs or TVs with improved ergonomic adjustability
- Constant Force (CF™) lift-and-pivot motion technology provides premium ease-of-use LCD adjustment 
- Neo-Flex LCD Stand is the only weight-adjustable desk stand display accessory on the market
- Easily position your LCD for maximum comfort and productivity
- 5" (130 mm) height range easily meets the ergonomic height needs of the average male to the average female in seated applications
- Accommodates LCD weights of 6–16 lbs (2.7–7.2 kg)
- Sleek, durable, easy-to-clean plastic exterior
- Meets UL Specification 360950 Tip Test for all weights of LCDs
- Rugged construction
- Easily attaches to LCDs that are VESA® MIS-D, 100/75, C compliant

Neo-Flex™ LCD Stand

More motion. Less effort. **Feel the difference.**

Add greater range of movement to your LCD display or TV with the Neo-Flex LCD Stand! This proven technology is now available as an accessory to displays. Previously, this design was only sold directly to LCD manufacturers (OEM).

Ergonomic experts recommend that the height of your LCD be positioned so that the top of the screen is at, or slightly below, eye level. This reduces fatigue and possible Musculoskeletal Disorders (MSDs) of the neck and shoulder. The Neo-Flex LCD Stand addresses this issue by allowing you to instantly set the height of your display.

With fingertip effort, you can raise or lower your LCD 5" (130 mm), pan right/left, tilt forward/back, or rotate 90° for portrait/landscape viewing. Patent pending lift-and-pivot motion technology provides smooth, easy adjustment.

Position the height and angle of the LCD for maximum comfort and productivity. Rotate for portrait/landscape viewing.

Easily attach your LCD to the stand with four screws.

Constant Force (CF) lift-and-pivot motion technology provides smooth easy adjustment.

Base uses little space yet ensures stability even as the monitor is adjusted.

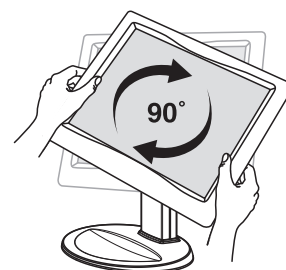

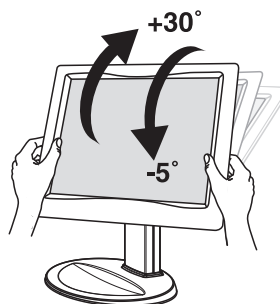

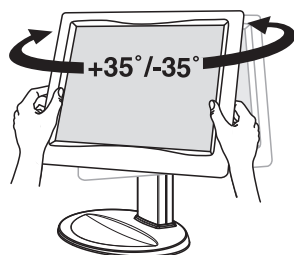

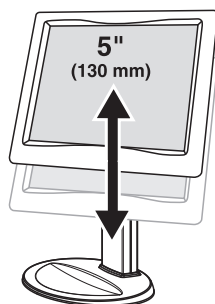

Range of Motion:

5" (130 mm) height range

LCD pans $\pm 35^\circ$ right/left

LCD tilts $-5^\circ/+30^\circ$ forward/back

LCD rotates 90° portrait/landscape

Basic Specifications:

Description: Neo-Flex LCD Stand; model NF05LD1B
Consumer Part Number: 33-294-CBL (black)
Commercial Part Number: 33-288-CBL (black)

Weight Capacity: 6 – 16 lbs (2.7 – 7.2 kg)

* Exclude weight of any existing LCD stand

LCD Interface Options:

- VESA FDMI MIS-D, 100/75, C*
(hole pattern: 100 x 100 mm & 75 x 75 mm)
- VESA FPMPI (hole pattern: 100 x 100 mm & 75 x 75 mm)

Warranty: 3 year

* VESA mounting interface location on LCD must be a maximum of 1" above or below LCD center line to achieve ergonomic guidelines.

Shipping Weight: 9 lbs (4.07 kg)

Standards Compliance*:

- VESA FDMI and VESA FPMPI
- Meets UL Specification 360950 Tip Test for all weights of LCDs
- Conforms to European TCO-03 Certification Label, Physical Ergonomics Standard

NOTE: To find out more about how to set up an ergonomically correct workstation and the scientific basis for the design of this remarkable product, go to www.ergotron.com and click on the Ergonomics link at the top of the page.
